

# IFA SUCCESS STORIES

## Abonga Mokotha

**R**aised in Delft, a township on the outskirts of Cape Town, Abonga comes from humble beginnings.

He worked as a Coordinator in the management team of a big retail company for 5 years, however like most South African households, he battled to make ends meet as his salary would be finished in just 3 days after payday.

Abonga joined the IFA Business in March 2019 in order to make extra income, but in just a few months of running his IFA Business he resigned from his job in that same year with immediate effect to pursue IFA full time. "In that 5 years I felt I hadn't achieved enough, I was still living at home in the back-room of my mom's house." Abonga explains.

Just 2 years later and having achieved a lot of IFA accolades, Abonga now lives in a 3 bedroom home that he purchased in the suburbs of Cape Town to the value of R600,000. He also bought himself a brand new 2020 Hyundai Tucson SUV.

Abonga's success journey is like that of many IFAs, his first earnings after being in the business for 2 months was R300, and now he earns more than R46,000 every month. "I've been able to pay off the many loans that I had and I'm now building a house for my mother. IFA is power." he shares.

The big dreams for the 29 year old don't stop here, Abonga continues to work hard and plans to be a Top Earner and be in Club 2000 by 2022.

Abonga now lives in a 3 bedroom home that he purchased in the suburbs of Cape Town to the value of **R600,000**. He also bought himself a brand new **2020 Hyundai Tucson SUV**.
